

Tellepsen
Building on a Century of Trust

Building... for centuries.

For nearly a century, Tellepsen has been privileged to bring to reality the visions of so many inspired people who saw a new future within their reach. And they, in turn, inspired us.

Today, we look across the horizon and know we had a hand in seeing their dreams fulfilled in the hospitals, churches, businesses, schools, multi-family homes, and retail and lifestyle centers we have constructed for them.

United Way

Closer to home, we see the effect their trust has had on our business, as Tellepsen has become recognized for being at the forefront of construction industry innovation for:

- Pre-construction services
- Real-time schedule management
- Having the most LEED-accredited professionals of any Texas builder
- Building the first LEED-certified public school in the state
- More than 1.5 million safe man hours

Tellepsen Listens

***Congratulations to our last winner of the iPod,
Charles Browne.***

You could win an iPod too. In your last project, how much budget variance was there from first bid to final cost?

Go to www.tellepsen.com/listens for the results of our past survey, and for your chance to win!

**WIN
an iPod!**
